

KRITTERCAPS® INSTALLATION INSTRUCTIONS

KritterCaps® feature a 4 in 1 design that allows them to be installed in all standard sizes of vinyl corner posts. They can be easily sized to fit your application by cutting or breaking off the tabs with side cutters or pliers. No other tools, screws, or glue required.

Remove all pests before you begin if possible. You may need to trap and remove any remaining pests after installation.

1. Checking the corner post opening

Measure the outside of the corner post to determine which outside tabs to remove. Use the included mirror or a camera to inspect the corner post opening. Look for gaps where the sheathing fails to overlap properly. This is where the **Filler Tabs** can be left on to fill the gaps. In the next step, remove any tabs that are in the way of installation. If you're unsure, you can test fit and check with the mirror or camera as you go. Be careful not to remove more tabs than necessary.

Filler Tabs

2. Remove tabs to size

Use side cutters or pliers to remove the tabs. If using pliers to bend the tabs, be careful not to break off more than intended. Hold the KritterCap® up to the corner post opening to check which **Filler Tabs** will remain attached in order to fill any gaps.

- 4" corners use the whole KritterCap®.
- 3 1/2" corners, remove the Green tabs.
- 3" corners, remove the Green and Yellow tabs.
- 2 3/4" corners, remove the Green, Yellow, and Red tabs.

3. Installing the KritterCap®

Begin by sliding one side of the KritterCap® into the corner post opening. Slide the KritterCap® into the corner post, working from side to side to keep it straight. **Push the KritterCap® up 4" to 6" inside the corner post.** This will allow the vinyl siding to grip it tightly during expansion and contraction caused by temperature changes. Use the included mirror or a camera to check that the gaps are filled. Your corner post is no longer a point of entry for pests. It's that easy!

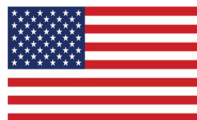

CAUTION - Tabs can leave sharp edges.

CHOKING HAZARD - Do not leave small pieces within reach of children or pets.

PROPERLY DISCARD ALL PIECES REMOVED FOR INSTALLATION.
